## Who and What are Complimentary Drinks

Complimentary Drinks are professional entertainers who will engage and enliven your guests by paying them bespoke compliments, for an unforgettable experience. With a full menu of commendation, admiration and appreciation, our hosts will lift your spirits and we're not talking vodka here.

## The Experience

Our bubbly hosts create a warm atmosphere as each guest is served with a round of kind words, tailor-made to their persona. Positive attention makes some blush, but soon everyone is in the mood and the fun continues as guests are encouraged to pay each other compliments.

## For All Occasions

Xmas parties, Birthday parties, Award Ceremonies and any other celebrations (online or in-person). We also bring our experience to the office, giving a company's Monday Morning Meeting or Friday After-Work drinks a lift as we celebrate the team's strengths and successes.

## The Scientific Power of Praise

Research has proven that the brain's reward centre, the striatum, is stimulated by words of praise in the same way as a monetary prize. Further research has shown that praise significantly improves learning and performance. Compliments affirm desired behaviours, boost self-esteem, improve communication and create a better social environment.

## A Little Help

Expressing admiration can feel socially awkward. We don't give or receive as many compliments as we would like, though we do love to hear them! As a relational skill that doesn't come naturally it may need to be encouraged.

## Cheers!

In these challenging times, we've witnessed how powerful and cherished a well-placed compliment can be. Sparking joy and kindness seems more important than ever. We're passionate about spreading this magic by empowering friends, family and colleagues with this undervalued skill that can yield priceless moments.
