If there's one thing more prized than outdoor space in the city, it's private green space, with access reserved for just a lucky few. London members' club Home House boasts a high-grade example: a secret garden. Hidden in a quiet leafy square in the heart of Mayfair, this retreat is a welcome sanctuary from urban life.

Helping to recreate the feeling of calm wherever you are is Acqua di Parma's luxurious scented candle collection. From distinctive cube candles to delicate glass-cased versions, each offering from the Italian company combines unwavering craftsmanship with sophisticated design.

The striking 'Design Candles' now come in a new miniature size, perfect for a city garden. Like the towering originals, the smaller models are moulded from natural carnauba waxes containing concentrated perfume essence. Handcrafted in Parma, the candles mimic the elegant, understated shape of Acqua di Parma's iconic 'Colonia' perfume bottle.

The 'Design Candles' are available in the most iconic Acqua di Parma scents – Amber (black), Spicy Accord (red) and Colonia (yellow). Even the smaller, 14cm versions have the capacity to burn for up to 50 hours. Placed indoors or outside, the candles' relaxing aromas will set an indulgent tone in any space.

Small 'Design Candles', £39 each, by Acqua di Parma, from Harrods, Selfridges, Harvey Nichols, Fenwick, Brown Thomas, Space NK and leading department stores. Tel: 44-332 231861 (UK), www.acquadiparma.com
