# ABOUT US

ID&C has supplied 10 million+ RFID wristbands and credentials to thousands of events, in 23 different countries, across 5 continents. We have worked with event organisers and industry leaders for more than 25 years and understand the importance of quality, accuracy, speed and value.

At the heart of ID&C is innovation and over the years we have developed products that have been adopted by the majority of major events and venues in the UK and beyond.

## WHO WE WORK WITH

«READING LEEDS»

ISLE OF WIGHT FESTIVAL

In January 2020 ID&C was acquired by CCL Industries (a world leader in specialty label, security and packaging solutions for global corporations, government institutions, small businesses and consumers) and now forms part of CCL's Avery segment.

# CUSTOM WRISTBANDS

Our most popular product, wristbands are a staple of the events industry with limitless possibilities.

With every wristband fully customisable, design your own or take advantage of our in-house artwork team.

# WOVEN WRISTBANDS

The classic festival wristband available with woven fabric. Fitted with a black barrel lock as standard.

## NEON THREADS

Our range of neon threads help your design stand out, and will illuminate under UV light.

## SMARTCARDS

Smartcards can be used to highlight your logo, add a barcode or QR code and can also be set up for RFID connectivity.

## GLITTER THREADS

Glitter threads work great for a bright base colour or a fun highlight.

## SERIALISATION & VARIABLE DATA

Use serialisation to enhance the security of your event, making each band unique.

### Key Info

Size: 16 or 20 x 350mm  
Lead time: 2 weeks  
Min. quantity: 25

### Additional Features

Ink stamped serialisation  
Woven serialisation  
Barcodes and variable data  
Kimble tag  
Super stitching on ends  
Glow in the dark thread  
Soft fabric backing

# PRINTED WRISTBANDS

Premium fabric with a smooth satin finish.

Printed bands allow for the full colour spectrum, gradients and edge-to-edge printing.

More versatile than woven, allowing smaller details, gradients and other effects.

Printed fabric wristbands provide a more versatile solution for your event, while just as secure as woven.

## CHOOSE YOUR SIZE

Fabric wristbands measure 350mm, with widths of either 16 or 20mm.

## DOUBLE SIDED PRINT

Printed bands allow the option of a double sided wristband.

## SMARTCARDS

Smartcards can be used to highlight your logo, add a barcode or QR code and can also be set up for RFID connectivity.

## STOCK DESIGNS

We also have a range of stock designs to help cater for an array of events.

## SERIALISATION

Use serialisation to enhance the security of your event, making each band unique.

### Key Info

Size: 16 or 20 x 350mm  
Lead time: 2-3 weeks  
Min. quantity: 25

### Additional Features

Laser cut serialisation  
Dye sublimation serialisation  
Barcodes and variable data to be printed on a smartcard.

# FABRIC LOCK TYPES

## Barrel Lock

The round barrel lock is our standard secure lock.

## Coloured Barrel Lock

Match the lock to any pantone colour to suit your design or branding.

## Printed Barrel Lock

For the extra detail, why not print your logo on the barrel lock?

## Glow in the Dark Barrel Lock

Doing exactly as the name suggests, these locks are ideal for clubs and parties.

## Stadium Lock

A flat, slimmer version of our standard barrel lock.

## Side Load Barrel Lock

This lock meets the wristband at the side rather than going straight through.

## Square Barrel Lock

With flat, square edges, the square barrel lock can fit stickers including QR codes.

### Metal Ring

Secure your wristband with a metal ring. Crimping tools can be hired or bought separately

### Bamboo Lock

Reduce your plastic usage with the lock made from bamboo.

### Loop Lock

An all-in-one lock and wristband that is easy to apply and difficult to remove.

### Adjustable Bead

With many variations, the adjustable bead is the best choice for casual events.

### White Bead

As well as standard black, the adjustable bead comes in white at no extra cost.

### Slim Slider

For a less bulky adjustable bead, choose the slim slider.

### Wooden Bead

The wooden bead is a more natural alternative to the plastic bead.

### Metal Bead

Add some shine to your wristband with the adjustable metal bead.

# SILICONE WRISTBANDS

A comfortable and stylish accessory, our silicone wristbands are perfect for casual events, charitable awareness campaigns and more.

## DEBOSSSED SILICONE

Create a sunken design to give your wristband more texture.

## EMBOSSSED SILICONE

Embossing is another way of adding texture, creating a raised design.

## EXTRA WIDE SILICONE

If standard 12mm aren't enough, choose a thicker 25mm width.

### Key Info

Lead time: 2-3 weeks  
Min. quantity: 50

## PRINTED SILICONE

Includes up to three print colours.

## INK-FILLED SILICONE

Adds colour to your debossed design.

## MULTICOLOURED SILICONE

For a more vibrant gradient effect you can merge base colours together.

### Additional Features

Static QR code  
Individually wrapped  
Glow in the dark bases

# VINYL WRISTBANDS

Full colour vinyl allows for barcodes, serialisation and variable data, making your event more secure.

Choose from a range of shapes to give your wristband and event some unique flair.

A cheaper alternative to fabric bands, the full colour print means your designs can be just as creative.

The classic wristband, widely used across a range of music and sporting events, festivals and parties. The snap lock provides a highly secure and tamper evident closure system.

L-shapes are the most common vinyl wristband and comes in 28 base colours.

Printed on sheets of 10, vinyl does not allow for edge-to-edge printing.

Serialisation can be made to your specification or randomly generated.

## Key Info

Lead time: 1-2 days  
Min. quantity: 50  
5 shapes to choose from.  
Printed on sheets of 10.

## Additional Features

Barcodes & QR codes  
Variable data & serialisation  
UV ink  
Holographic sticker

One colour print still allows for serialisation to make your event secure.

There are unlimited print colours to choose from, so we can always match your brand.

Tabbed bands provide tokens for your event, with wristbands of up to 10 tabs available.

Tabbed bands have a 2 week lead time, with 3 tab express available within 4 days.

Tabbed bands are one colour print only with limited print colours.

## L-SHAPE

Our standard vinyl wristband is the L-shape, featuring our widest range of base colours, with 28 to choose from.

## WIDE FACE

If you need more space for your design, why not try our wide face vinyl? 16 base colours available.

## KOOLBAND

Our koolbands are similar to L-shape, but add a wavy edge to make your product stand out. 18 base colours available.

## LASER CIRCLE

Laser circle are the premium L-shape wristband, featuring holographic circles for added security; a choice of 8 colours.

## GLITTERBAND

Glitterbands do exactly as the name suggests, with a glitter finish on a wavy, koolband shape across 5 colours.

## TABBED BAND

Tabbed bands feature detachable tokens for your events. One colour print only, with up to 10 tabs available.

# CHROMA WRISTBANDS

Perfect when you need a full colour print on a short turn-around.

Chroma is fit for barcodes and other forms of serialisation.

Full colour with HD digital print. Water resistant glossy finish

Soft but durable paper style wristband. Ideal for single day events. Our full colour bands are made from a tyvek-like material which is tamper and tear resistant.

Solid backdrops can be any colour you choose, though pantone matching cannot be guaranteed.

We have a range of seasonal stock designs for quick, full colour festive fun

## Key Info

Size: 1 inch  
Lead time: 1-2 days  
Min. quantity: 108  
Sold in sheets of 12

## Additional Features

Barcodes & QR codes  
Variable data & serialisation  
Holographic sticker

# TYVEK WRISTBANDS

Widely used for admission control at events, nightclubs and parties.

Paper-like material makes it easy to write on.

Easy to apply to the wrist and once secured, a tamper evident adhesive prevents it being removed.

Classic single-day paper wristband. Available with black print only. Our tyvek wristbands are a cheap yet secure solution for any event.

As well as custom designs we have a number of pre-made designs to cater for your event.

Tyvek wristbands are black print only, but offer a range of colours and striped patterns.

29 base colours to choose from!

## Key Info

Size: 19mm (3/4 inch)  
Lead time: 24 hours  
Min. quantity: 10  
Sold in sheets of 10

## Additional Features

Secondary serialisation  
Holographic sticker  
QR code sticker

# LANYARDS

Worn around the neck, lanyards are an easily noticeable form of ID and security.

We offer both stock and fully customised lanyards, as well as a wide range of accessories and add-ons.

# FULL COLOUR LANYARDS

Print as many colours as you like with full colour edge to edge printing.

Full colour lanyards are also available for express delivery - made and shipped within 2 weeks.

Customise your clips to be either single or double ended.

Our full colour lanyards are custom printed using a dye sublimation process onto soft, smooth satin. The high quality finish makes them perfect for branding at events.

Customise the lanyard with a variety of mid-fabric attachments

## Key Info

Size: 15 or 20 x 900mm  
Additional widths available on request.  
Lead time: 2-3 weeks  
Min. quantity: 25

## Additional Features

Metallic screen print  
Reflective strip  
Removable buckle  
Multiple attachments  
Clear plastic wallets

# SCREEN PRINTED LANYARDS

Ribbed polyester is pantone matched to help guarantee consistency with your brand identity.

One colour print as standard, while two colours can be requested.

Dog clip comes as standard.  
See pages 30-31 for the full range of lanyard clips.

Custom text and logos are screen printed directly onto a ribbed polyester material for this lanyard. The high quality finish makes them perfect for branding at events.

Detachable buckles allow easy removal of laminates and ID cards.

Underglue provides a smooth, raised print surface to allow for more intricate detailing.

Reflective strip makes it easy to stay seen. Perfect for evening events.

## Key Info

Size: 15 or 20 x 900mm  
Additional widths available on request.  
Lead time: 2-3 weeks  
Min. quantity: 25

## Additional Features

Metallic screen print  
Multiple attachments  
Clear plastic wallets

Additional plain stock lanyards

# LANYARD CLIP TYPES

Dog Clip

Gold Gog Clip

Double-Ended Dog Clip

Badge Reel

Lobster Clip

Tension Clip

Plastic Tension Clip

Crocodile Clip

Split Ring

# LANYARD ACCESSORIES

## PREMIUM SPORT LANYARD

Choose either our full colour or screen printed lanyards, both are perfect for this premium clip.

Our premium sport lanyards come fitted with a metal bar clip that securely holds a laminated ID badge.

The metal bar clip can be plain or custom engraved to match your brand.

## ID CARD HOLDER

Made to protect your cards and prevent them from becoming bent or scratched.

Our rigid, open-faced card holders feature a slot for attaching a lanyard and are available in a range of base colours to best match your brand.

## CLEAR LANYARD POUCHES

Plastic lanyard pouches and wallets can be used to carry and display any kind of event pass, conference ID or name badge. Each lanyard wallet and pass holder has a hole to attach a lanyard.

# EVENT PASSES

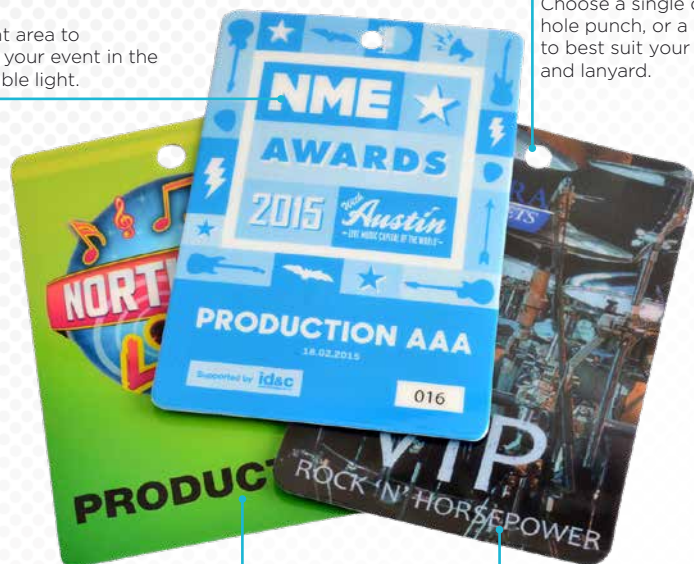

Event passes are a classic addition to security accreditation for any festival, event, concert or tour.

Our extensive range of custom passes cover all your needs and provide flexible solutions for your events.

# LAMINATE PASSES

Large print area to showcase your event in the best possible light.

Choose a single or double hole punch, or a slot hole to best suit your design and lanyard.

Full colour double sided print with a wide range of further visual customisation options.

The perfect lanyard accompaniment which is also 100% waterproof.

## Key Info

Size: 70x100mm standard size  
Custom sizes and shapes available  
Lead time: 5 days+  
Min. quantity: 25+

## Additional Features

Barcodes, QR codes, variable data and serialisation  
Security stickers  
Holographic foiling  
Tear-proof passes  
Hard PVC passes  
Neon pink print

Create a custom laminate in any shape of your choosing.

Work with our design team to create a unique shape for your event.

## UV LAMINATE PASS

Add a UV print for a more secure laminate pass.

## TEAR-OFF LAMINATE

Choose from a range of laminate sizes and all of our customisation options.

Add tear-off tokens for your guests to use at your events.

If the standard 3-tab laminate is not enough we can provide as many as 10 removable tabs.

## ID CARDS

Get creative with a unique full colour design to match your company or event.

Variable data allows for unique photos for each member of your team.

For further security add a barcode or QR code to scan.

## SHIMMER LAMINATE

Bronze, silver and gold finishes in a range of sizes beyond the standard 70x100mm

Full colour print on one side with a mirror finish on the reverse.

## SATIN STICKY PASS

Made from a self-adhesive material that is malleable to clothing and flight cases for tours and concerts.

The satin passes can be written on and re-applied multiple times before losing their tack.

# LENTICULAR PASSES

Our lenticular laminates are made from the same quality materials as our standard laminates but feature a lenticular (or holographic) effect.

## COMMEMORATIVE LENTICULAR

Why not gift event attendees with a commemorative magnet with lenticular effect?

Large print area allows for your designs to shine like never before.

Choose from a magnetic or double sided lenticular effect.

### Commemorative Lenticular

Lead time: 3-4 weeks

Min. quantity: 1,000

Various sizes to choose from.

### Standard Lenticular Pass

Lead time: 3 weeks

Min. quantity: 100

Various sizes to choose from.

## STANDARD LENTICULAR PASS

Create a holographic effect and show off two designs with the lenticular laminate pass.

Durable and perfect for VIP experiences, especially when attached to a customised lanyard.

# EVENT GUIDES

Include between 3 and 10 passes per guide, each with double sided print.

Attract sponsor involvement to use your guides as an extra revenue stream.

Both matte and gloss finishes to choose from.

Enhance your event experience with our tear-proof festival guides. Use them to guide your attendees, fans, crew and guests around the site and provide key event information.

The tear-proof guides are ideal for longer events and enhance the guest experience.

Like our laminate passes, these guides can be made to custom shapes.

Festival guides can also be printed on recyclable paper; our full eco range available from page 74.

## Key Info

Size: 70x100mm  
Lead time: 2 weeks  
Min. quantity: 100

## Additional Features

Barcodes, variable data & serialisation  
Security foil

# MIRROR HOOK PASSES

Our standard mirror hook is printed on silky 300gsm card which can be easily recycled.

All our mirror hooks are printed double sided as standard.

## STANDARD MIRROR HOOK

Size: 82x202mm  
Lead time: 7 days  
Min. quantity: 100

Our soft PVC mirror hooks provide a more sturdy alternative.

Hard PVC mirror hooks are perfect for long term events.

All of our mirror hooks can feature barcodes, serialisation and other forms of variable data.

## SOFT PVC MIRROR HOOK

Size: 89x216mm  
Lead time: 3 weeks  
Min. quantity: 500

## HARD PVC MIRROR HOOK

Size: 70x160mm  
Lead time: 3-4 weeks  
Min. quantity: 100

# PARKING PASSES

Tampering is clear and evident to prevent reuse.

## TAMPER-PROOF PARKING PASS

Our tamper proof car stickers will eliminate the chance of pass backs between visitors. Each pass features a kiss cut perforation which makes the sticker split into pieces when removed from a windscreen.

Size: 100mm or 150mm diameter  
Lead time: 3 weeks  
Min. quantity: 250

## SELF CLING PARKING PASS

Sticker peels off without difficulty or residue for easy application to windshield.

Size: 12 shapes available  
Lead time: 2 weeks  
Min. quantity: 100

## PRINTED PARKING PASS

These economical passes provide a simple way to identify vehicles at your event and have optional security enhancements - including holograms, variable data, barcodes and RFID. Easily manage on-site vehicle access.

Size: A5, A6 or 100x70mm  
Lead time: 3 days  
Min. quantity: 50

# OTHER PRODUCTS

A large crowd of people at a concert or festival. Many people have their hands raised in the air, reaching towards the stage. The scene is filled with warm, golden light from stage lights, creating a bokeh effect in the background. The overall atmosphere is energetic and celebratory.

Explore what more ID&C has to offer, with a range of additional and specialty products to give your event the extra edge.

# CREDENTIALS PACK

Our credential & presentation packs are a great way to send out tickets, wristbands and lanyards to your VIP guests. The packs can be custom printed to suit any design and provide a fantastic memento for your event.

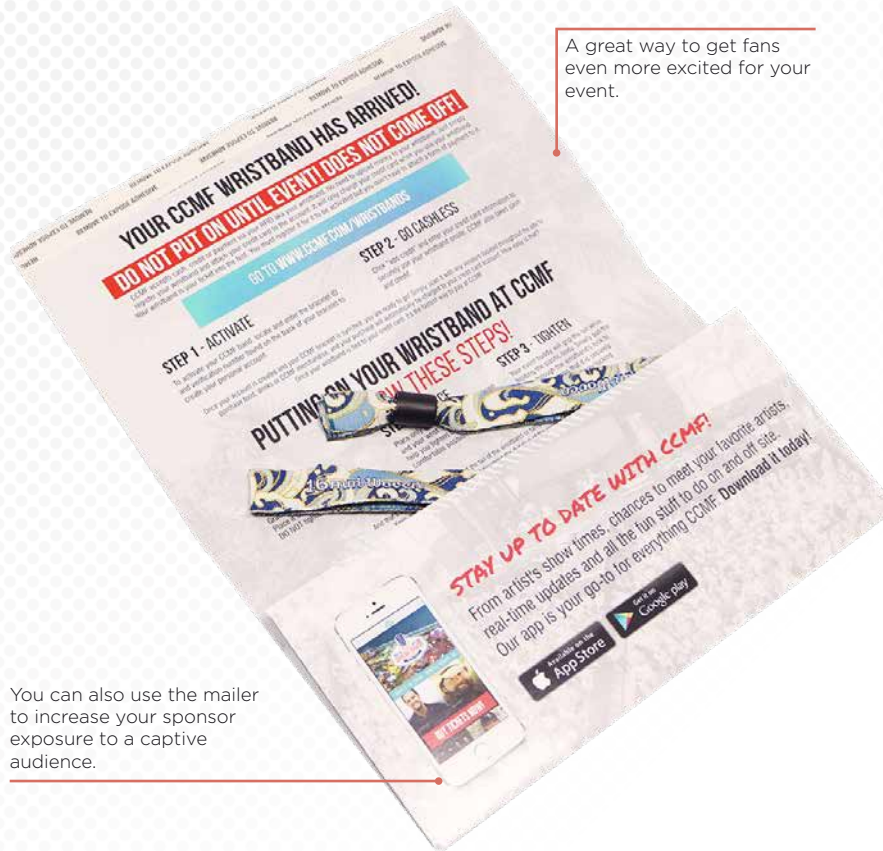

## Key Info

Size: 287x127mm  
Lead time: 2-3 weeks  
Min. quantity: 250

## Additional Features

Gloss or soft touch coating  
Custom sizes  
Variable data and serialisation  
Security foil

# WRISTBAND MAILER

A great way to get fans even more excited for your event.

You can also use the mailer to increase your sponsor exposure to a captive audience.

Use our wristband mailers to send your wristbands to event attendees. If you are choosing one of our RFID options, the mailer can feature clear RFID activation instructions. They are perfect for providing ticket holders with all the pre-event information they need.

The mailer features a pre-prepared adhesive strip - simply remove the protective cover to fasten.

The mailers have plenty of room to fit lanyards and event passes too.

Made from cardstock, this product is easy to recycle.

## Key Info

Lead time: 2-3 weeks  
Min. quantity: 500

Flyer: 107x215mm  
Standard: 140x215mm  
Tri-fold: 140x215mm  
Wide pocket: 11.5x4.75 inches

# RFID SOLUTIONS

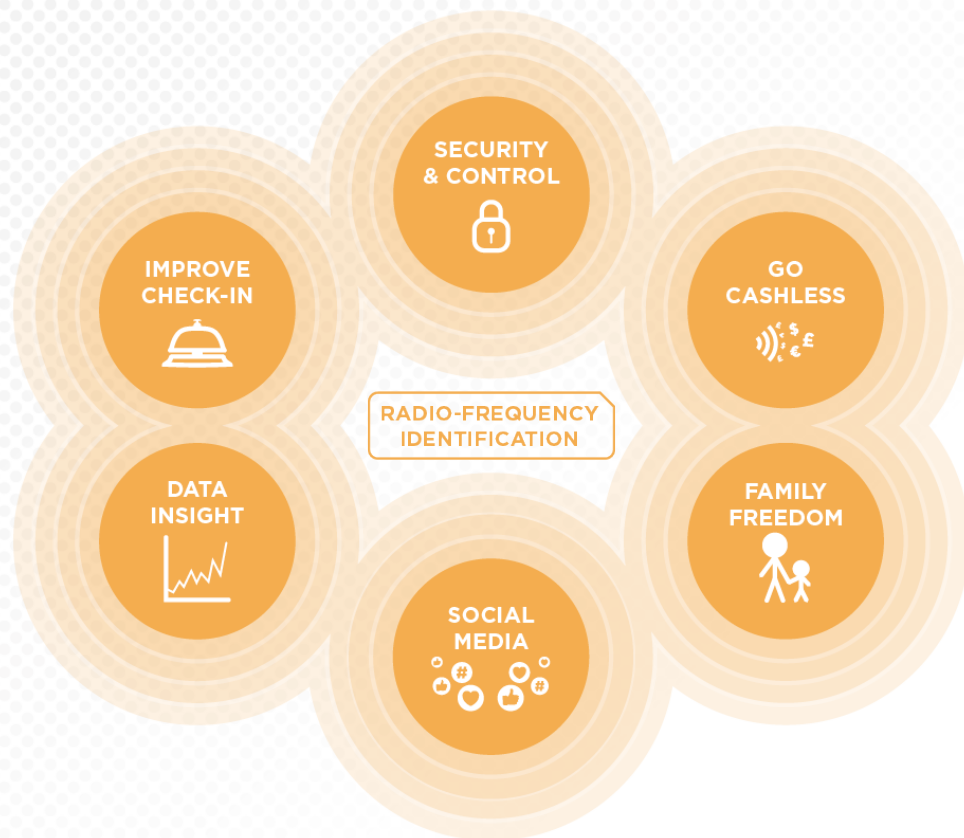

The background of the slide is a dynamic, abstract digital composition. It features a dark blue to black gradient, overlaid with a dense field of glowing binary digits (0s and 1s) in various shades of blue and white. Sweeping across the lower half of the image are numerous bright, multi-colored light trails in shades of cyan, blue, and orange, creating a sense of high-speed motion and data flow. The overall aesthetic is futuristic and tech-oriented.

RFID is the technology reshaping the way event organisers control access, manage transactions and engage their audiences.

Take the next step to bring your event to the next level.

# WHY CHOOSE RFID?

RFID wristband technology is re-shaping the way event organisers control access, manage transactions and engage their audiences.

ID&C offers a range of tried and tested RFID products designed to enhance live events for organisers and fans.

## SECURITY & CONTROL

The opportunity for theft and fraud is reduced when guests only need to wear a wristband. There's no need to carry cash, credit cards or even a wallet. And, just like a credit card, if an RFID wristband is lost or stolen, the system allows easy cancellation and re-issue.

RFID wristbands are associated with encrypted, individual IDs, so it's pretty much impossible to duplicate them. And if you felt like anyone was up to anything they shouldn't be, you can quickly deactivate an individual wristband to cancel entry into certain areas.

## IMPROVE GUEST CHECK-IN & ENTRY

Overcomplicated entry and admission processes will frustrate your guests and negatively affect their experience.

Use RFID systems and wristbands to fast track guest entry, reduce queuing time and speed up access to paid services.

## GO CASHLESS

RFID works like a contactless credit card. RFID wristbands enable cashless payments, allowing guests to pay for drinks, food, and merchandise with a quick and easy 'tap'. All without having to worry about handling soggy cash or carrying around a wallet.

Furthermore, the disassociation with cash that comes from using RFID wristbands results in an average increase spend per-head of between 15-30%.

## DATA & INSIGHT

You'll have the ability to collect intelligent data and deep analytics on your customers behaviour. Easily discover how guests use, interact with and move around your attractions, helping you to determine traffic patterns, dwell times for services, and tap into undiscovered operational efficiencies. With RFID cashless wristbands in action, you'll also get smart data on purchases, allowing for optimized merchandising and concessions.

## FAMILY FREEDOM

Allowing children to have their own wristbands for purchasing food and drinks, gives them a sense of independence. RFID technology allows parents to set spending limits, or remove the option for payments, leaving it solely as a key for room and locker access.

Parents will also find comfort in the fact that if a child is lost, RFID wristbands can be used to determine the last location of the child.

## SOCIAL MEDIA ENGAGEMENT

Visitors can link their RFID wristbands to their social profiles and open-up a whole host of fun experiences. Once linked, guests can post photos to Instagram or 'check-in' on Facebook, all by tapping their wristband against an RFID touch-point. Giving guests something to share socially with friends also provides free online advertising for your brand.

# EMBEDDED FABRIC RFID

Woven wristbands can feature up to 8 threads to help create striking designs filled with colour.

Super-stitching ensures the chip remains safe and secure inside the fabric.

These woven fabric wristbands feature an embedded RFID tag, enabling compatibility with any RFID event solution including access control, cashless payments and social media integration.

Laser engraved UID and serial number on reverse of band.

For added flair choose from our ranges of glitter and neon threads.

## Key Info

Size: 22x350mm  
Lead time: 6 weeks  
Min. quantity: 500

## Additional Features

Pantone matched barrel lock  
Glow in the dark barrel lock  
Kimble tag

# X-BAND SECURE

Choose from a printed or woven wristband along with a woven pouch for the RFID chip.

Also available as loop lock wristband.

RFID chips can also be included inside a woven pouch which helps to highlight the area to scan. This also allows for mixed media, with a full colour wristband and woven fabric pouch.

A great way to create a more vibrant and colourful wristband.

Available with any RFID chip including, NXP Mifare Classic 1K, 1 CODE, and NFC.

Just like our standard wristbands you can use glitter and neon threads to emphasise your brand.

## Key Info

Size: 350 x 16 or 20mm  
Lead time: 4-6 weeks  
Min. quantity: 500

## Additional Features

Pantone matched barrel lock  
Glow in the dark barrel lock  
Kimble tag  
Laser engraved variable data

# X-BAND ELASTIC

Stretchy full colour print wristband with woven pouch.

Re-usable, stretch wristband with integrated RFID tag

Made from elasticated material, this band is stretchy, soft and removable, making it ideal for multi-use. Elastic fabric wristbands can be printed in full colour digital print on both the outside and inside of the wristband.

Woven pouches allow for designs on both sides of the wristband.

A wide range of sizes to help cater to your clientele.

Securely woven to the elastic fabric to help guarantee long term usage.

## Key Info

Lead time: 4-6 weeks  
Min. quantity: 500

Printed UID & serial number

## Sizes

Child - 50mm diameter  
Small - 55mm diameter  
Standard - 65mm diameter  
Large - 75mm diameter

# SMARTCARD WRISTBANDS

Smartcards allow for a detailed print and can be used across our range of fabric wristbands.

## STANDARD SMARTCARD

Fits both 16mm and 20mm wristbands.

Choose our standard smartcard, oval or bamboo smartcard.

## OVAL SMARTCARD

Create a design to compliment the wristband or add important info and variable data.

### Key Info

Size: 16 or 20 x350mm  
Lead time: 3-4 weeks  
Min. quantity: 500

### Additional Features

Barcodes, variable data & serialisation  
Pantone matched barrel lock  
Glow in the dark barrel lock  
Kimble tag  
Glow in the dark smartcards

# SILICONE WRISTBANDS

RFID chips are embedded into the silicone making them impossible to remove.

Soft silicone is ideal for casual events or when the wristband can be reused.

These stylish, re-usable silicone wristbands are integrated with an RFID chip.

Water-proof and hard-wearing, these comfortable silicone bracelets are a perfect solution for leisure complexes, theme parks, water parks, sports activities and outdoor events.

100% waterproof and durable for long lasting use.

Choose from 10 different designs, each with various levels of customisation.

## Key Info

Lead time: 6 weeks  
Min. quantity: 500

## Common RFID Chip Types

NXP Mifare Classic 1k  
Fudan 1k  
NXP Mifare Ultralight (+ EV1)  
NXP ICODE SLI  
NXP Mifare Ultralight C  
NXP NTAG 21  
TK4100

## Colour Options

Pantone matched base silicone comes with up to three printed colours.

Like our standard silicone wristbands, you can also choose to have your design embossed, debossed or ink-filled.

## Additional Features

Soft oil coating

## OBLATE FACE - THIN STRAP

Adult: 62mm diameter  
Adult XL: 67mm diameter  
Child: 55mm diameter

## OBLATE FACE - THICK STRAP

Adult: 65mm diameter  
Child: 58mm diameter

## ROUND FACE

Adult: 65mm diameter  
Child: 58mm diameter

## OVAL FACE

Adult: 62mm diameter  
Adult XL: 67mm diameter  
Child: 55mm diameter

## REGULAR SLIMLINE

One Size: 74mm Diameter

## ADJUSTABLE SLIMLINE

Adjustable strap makes it a one-size fit.

## WATCH STRAP

Adjustable buckle to fit all with a wide face for a large print area.

## TWO TONE

Adjustable strap to fit all.

Two layers of silicone allows for a more visually stunning design.

## POP OUT

One Size: 77mm diameter

Pop-out style hard plastic oval face can be printed in full colour for more exciting designs.

Embossed, debossed and ink-filled designs not available.

## WAVY EDGE

Adult: 65mm diameter  
Child: 45mm diameter

Clear oval case with pantone matched face and translucent stretchy wrist strap.

Embossed, debossed and ink-filled designs not available.

# OTHER RFID WRISTBANDS

## LED FABRIC WRISTBAND

4 embedded LEDs with 5 functions and 12 colours to choose from.

Over 1 months continuous battery.

Wristband can be either woven or printed fabric at either 16 or 20mm.

Lead time: 4 weeks  
Min. quantity: 500

Clear/translucent ultrasonic welded case.  
Laser engraved UID.

## RFID PP WRISTBAND

A paper-like wristband similar to Chroma that prints full colour and is 100% waterproof. Barcodes and other serialisation is also available.

Size: 250x35mm  
Lead time: 4-6 weeks  
Min. quantity: 1,000

## ENCAPSULATED RFID VINYL

One colour print on white as standard. For bespoke base colours and full colour print please enquire.

Lead time: 2 weeks  
Min. quantity: 1,000

## WASHABLE MASK WITH REMOVABLE FILTER

Fully customised face masks, designed to work with a PM2.5 disposable filter that effectively blocks particles such as haze, dust, and pollen.

2-3 week lead time.  
Minimum order of 100

## 3-PLY DISPOSABLE FACE MASKS

Easy to use PPE with up to 96% filtration efficiency, these 3-ply face masks are ideal for everyday use.

Readily in stock for a 1 day turnaround.  
Come in packs of 50.

## N95 (FFP2) FACE MASKS

Made of non-woven polypropylene spunbond, these are by far the most comfortable masks that we have carried. Designed to provide advanced respiratory protection.

Readily in stock for a 1 day turnaround.  
Individually wrapped in packs of 10.

# STAY SAFE WRISTBANDS

With a myriad of uses and a quick turnaround time, tyvek wristbands are an affordable and effective way to clearly identify guests and staff for your events.

We have a wide range of pre-made designs specifically catered towards preventing the spread of covid-19, while still being fully customisable so you can always stay on brand.

# LANYARDS & PASSES

We also offer a range of pre-printed double sided lanyards and laminate passes to provide further covid awareness and help maintain social distancing. These stock items allow for immediate turnaround.

# ANTIMICROBIAL OVERLAY

Our antibacterial self adhesive overlay can easily be applied to id cards and event passes for an effective solution in the prevention of spreading viruses. The permanent antiviral overlay has a strong adhesive to ensure it cannot be easily removed or peeled off. It is an ideal product for passes, as only one application is necessary. The active film works by eradicating the conditions that microbe cells and bacteria need to survive and has been proven to be 99.9% effective.

## Key info

70x100mm  
Supplied as 10 sheets of 4 to cover 20 cards on both sides.

86x54mm  
Supplied as 10 sheets of 10 to cover 50 cards on both sides.

Both sizes are readily in stock for next day turnaround.

Our number one priority is the safety and wellbeing of our employees, suppliers and customers.

Our hearts and thoughts go out to those who have been affected by this pandemic and we appreciate the work our healthcare workers, local communities, and governments are doing on the front line to contain this virus.
